

Introduction and Feedback: TEAM SA

To unite the fragmented voices in South Africa against the local and international forces of control, TEAM SA was established by Freedom Alliance South Africa as a special-purpose vehicle. Its objective was to transform these voices into a unified, effective, action-oriented alliance that urgently confronts the unilateral actions imposed upon the citizenry.

FASA and others already participating in TEAM SA recognise the divisions of previous decades and centuries, knowing full well that freedom, peace, and unity for all have never been realised in the nation we love.

We also know that many of the divisions that have produced bloodshed were generated by wayward leaders who made poor decisions, as well as leaders who permitted external forces to divide and conquer us.

We, the people of this country, are living with the wounds and scars of our history. The moment has come to rise beyond all of these divisions, especially because many of them have been intended to weaken us as a collective.

We have no illusions about the magnitude of the work required to unite this nation, but with God and every person choosing to move forward, we do not doubt that in time, we will begin to emerge from the dust of the propaganda, lies, and deceit that has kept us subjugated and divided.

Every one of us must get up and decide to rise above the past, extend a loving hand to our fellow South Africans, and move forward with ONE PURPOSE and ONE VOICE, to defeat this evil Goliath that is imposing itself on us and bullying us into a life of slavery, where every word, thought, and action will be controlled and monitored.

They controlled the past; we control the future. Choose love over fear, empathy over hatred, healing over keeping grudges, and, most importantly, freedom over servitude.

The strength of a united people may bring about CHANGE.

Individually or in small groups, we are droplets of water; together, we are an ocean with the ability to cause a TSUNAMI of CHANGE in our beloved country.

Each person and group who joins TEAM SA's collective vision comes to the table on an equal footing, ready to contribute their piece of the puzzle to the collective in weaving the miraculous tapestry that awaits the South African people.

FREEDOM IS THE POWER TO CHOOSE ... ONWARDS & UPWARDS !

We have a choice. Our team would rather die standing on our feet than live on our knees.

The time has come to draw a line in the sand beyond which evil will not be allowed to advance on our shores.

We have three task teams/action groups working on initiatives such as:

1. GOVERNANCE with an eye towards May 2024 and beyond (Unifying the divided voices into an SPV)
2. WHO TREATY (2 letters have been written to the president, and an action plan to EXIT THE WHO is in place)
3. CLIMATE CHANGE

Time is running out, and we need to IGNITE this and unite the flames into the promised firestorm of togetherness and regeneration that will sweep through this land.

The activities we have in mind all require you to rally behind us in numbers greater than the change that will occur in May 2024. More on this in the coming months.

For the time being, time is of the essence, and every one of you must ensure that when the solutions are given for final implementation, we have numbers to back them up.

HOPE IS ON THE WAY, but only if each South African contributes a drop to the ocean.

For any individual interested in participating or contributing, please reach out to us at contact@fasa.org.za.

We need people who can rally behind the next solutions.

Every person makes a difference, and no one is more important than the other. This is our country; let's make South Africa great and be a light to Africa and the world.

The phrase "your country and your countrymen and women need you" has never been more relevant.

It's TIME TO RISE, but it's also TIME TO SHINE.

Each of you can make a difference.

We are an island alone; united, we can be the nation we need to be.

FREEDOM IS THE POWER TO CHOOSE ... ONWARDS & UPWARDS !

In the spirit of Ubuntu....we are therefore I am....let us RISE and SHINE as one and ignite this country and set it ablaze with revival and a revolution of thinking and action that will deliver the necessary change for the people to govern and make decisions on how our resources can be used and who we choose to allow into our space. We can produce a righteous administration that will bring wealth and hope to all South Africans, but to do so, we need an unprecedented UNITY with one purpose, one aim, and one voice.

*It's Time to Rise
Now Is the Time to Unite
It's Time to Shine
It Is Time to Break the Shackles Of Bondage Over This Nation.
You And I Have the Ability To Change This Nation Together.
The People Must and Will Govern.*

Onward and upward!
